## FOREWORD

It is our great pleasure to release the seven Provincial Reports of the final results of the First National Economic Census of Nepal (NEC2018) which was conducted from 14 April 2018 to 14 June 2018, covering the entire territory of Nepal. Historically, it was the first Economic Census in Nepal as a complete count of all establishments. Under the legal basis of the Statistics Law and state decree on National Economic Census 2018 of Nepal published by Government of Nepal on March 13 2018, the NEC2018 aims at compiling basic statistics on establishments.

This report on final census results contains statistical tables derived from the information contained in the main questionnaire forms filled in by the enumerators or self-responded via online census. The final census results provide a detail information on the current situation of establishments in Nepal and serve for various users such as policy makers, government officials at national, province and local levels, international organizations, non-government organizations, private sectors, researchers, and development partners. The final census results will contribute to achieving the socio-economic development goals of the Government in supporting evidence-based planning. Further, the census results will support in developing and monitoring periodic or annual plans and programs oriented towards achieving sustainable development goals at national, provincial and local levels. More specifically, this report will fulfill the data gaps at the local levels. I am sure that the users will be very much benefitted to use the NEC2018 final results to the full extent possible.

We express our deep sense of gratitude to the various Government agencies, and other agencies for the constant support to the statistical activities, especially to the NEC2018 which enabled very successful completion of the census. I gratefully acknowledge technical assistance provided by the Government of Japan and Japan International Cooperation Agency (JICA) in the capacity development for the implementation of the first National Economic Census in Nepal.

I would like to thank Economic Census Steering Committee, Technical Committee, Joint Coordinating Committee, Media Campaign Committee, and District Economic Census Coordination Committee, which provided various kinds of facilitation and support for the implementation of the NEC2018.

The NEC2018 is one of the greatest statistical exercises in Nepal, and its successful completion was possible with the total help and cooperation received from one and all. The major share of the credit for the success of the NEC2018 should go to the entrepreneurs of small, medium and large establishments who paid busy and valuable time of their daily business to provide information to the NEC2018 Forms via different modes of data collection.

Deep thanks are also given to enumerators, supervisors, District Census Officers and the staff of 77 District Economic Census Offices, and CBS staff including Administration and Financial Administration Section who were devoted, hard work, and loyal in making census operation successful. I would like to thank Mr. Nebin Lal Shrestha, Deputy Director General, Social Statistics Division, and Mr. Hem Raj Regmi, Deputy Director General, Economic Statistics Division of the bureau for their valuable contribution and leading

roles in the census. Mr. Anil Sharma, and Mr. Mahesh Chand Pradhan, Directors of the Economic Census Section deserve special thanks for their lead role in driving the overall census planning, census operation, data processing, and data analysis. I also would like to thank Mr. Prakash Pokharel, Mr. Bikash Malla, statistical officers of the Economic Census section for effective and efficient census administration and management in overall from preparatory works to the post census phase activities. I would like to thank Mr. Kapil Dev Joshi, Statistics Officers, Suresh Prasad Kayastha and Khadga Bahadur Rana, Computer Officers for their special contribution in developing e-census application and its implementation, the development of tablet and desktop computer based data collection and processing application, data processing management from preparatory works to census operation in post census phase. I appreciate Mr. Shailendra Ghimire, Director for handling census enumeration mapping. I also thank to Mr. Rajesh Dhital for his contribution in the census. Similarly, I heartily appreciate for the directors, statistics officers who supported the census making successful in different stages. Our deep thanks are due to Mr. Fumihiko Nishi, Chief Adviser and other experts of "Project on Capacity Development for the implementation of Economic Census 2018 in Nepal" supported by JICA, who made all the best efforts in the success of the implementation of the NEC2018.

I hope, this Provincial Report on final census results will be very useful and meet the demand of the users to the extent most. CBS always welcomes comments and suggestions from users which would be valuable for the improvement of our future publications.

## **Brief Outline of National Economic Census 2018 (NEC2018) of Nepal**

### **1.1. Background**

A reliable and strong statistical infrastructure like database is the foundation of organized and proper policy formulation, developing plans and programs. The Central Bureau of Statistics (CBS), has been contributing the data for various sectors of the economy to meet the requirements of the policy makers and planners. At present days, demand of enormous data requirements exists in various sectors, the collection and update of data for various sectors are a challenge. Fairly reasonable data for the agriculture and non-agriculture sectors is highly desired. Keeping in view the importance of the various sectors of economic activities and non-availability of basic frame for adoption in various sampling methods for collection of data and estimation of various parameters or establishing business directory, it was necessary to conduct Economic Census in the country as a benchmark source. With this background, the CBS initiated to start the first Economic Census for preparing frame of establishments which can be used for various thematic surveys for collection of data on detailed characteristics of the economy. The basic purpose of conducting the economic census (EC) was to prepare a frame for follow up surveys intended to collect more detailed sector specific information. In view of the rapid changes in the economy, it is necessary to conduct the economic census periodically in order to update the frame.

An Economic Census (EC) is the complete enumeration of all establishments belonging to a given population at a particular time with respect to well defined characteristics located within geographical boundaries of a country. Basically, it is the whole process of collecting, compiling, processing, analyzing, and publishing economic data related to all economic units of the country. Census is a well-structured statistical operation providing timely, reliable, accurate and detailed data on the size and distribution of economic units of different categories. The first National Economic Census (NEC) of Nepal was conducted from 14 April to 14 June 2018 in all over the country. This will also be a major source of statistics on economic activities in the country. The EC essentially develops a sample frame for conducting various thematic economic surveys, and develops business registers for large and small scale establishments in different sectors like agriculture, mining and quarrying, manufacturing, wholesale and retail trade, education, health etc. A large number of new economic establishments emerge and diminish over time. It is imperative to conduct economic census covering all establishments conducting different sectors of economic activities as mentioned in International Standard Industrial Classification of all economic activities (ISIC revision 4) in order to know real picture of the economy. It was one of reasons that Government of Nepal decided to conduct the first National Economic Census of the country realizing to fulfill the shortfall of economic data in the country and to develop statistical business register in Nepal.

The economic census is a primary source of benchmark economic statistics providing major data about the structure and functioning of the national economy about both the formal and informal sectors. The first economic census of Nepal will play an important role in the improvement of national accounts statistics, production and price indices, and other statistical areas, which are used to measure short-term changes in the economy. The major benefit is that the census results will support in developing the statistical business register of the country which will enable CBS to conduct a large number of economic surveys such as Integrated (Large Scale) Manufacturing Industries Survey, Distributive Trade (Whole Sale, Retail Trade), Accommodation and food service activities Surveys, Services Survey, etc. The NEC data will be the basic economic data up to the local levels.

## **1.2. Objectives**

The main objective of the first National Economic Census was to know the nature of the economic structure of the Nepali economy at preset and to provide comprehensive statistical information for policy makers, planners, researchers, business communities, and other users for policy formulation and development planning, research and study. In general, the basic objective is to provide information on number of establishments and number of persons engaged, industry wise, of all the sectors (excluding unregistered *agriculture, forestry and fisheries, public administration, defense and compulsory social security, Activities of households as employers; undifferentiated goods- and services-producing activities of households for own use and Activities of extraterritorial organizations and bodies*) of the country.

The other objectives are:

- a. to provide with the fundamental statistics on the status of the business activities of the establishments and enterprises including the financial aspects;
- b. to provide statistics to central, provincial and local governments for the formulation of plan and policy-making;
- c. to provide statistics to strengthen national accounting system;
- d. to make a base for statistical business register;
- e. to provide statistics of related field to the business owners or experts, researchers and other statistics users to formulate plans and policies for the prosperity of their business;
- f. to provide with the directories of establishments and enterprises for the sampling frame of various sample surveys on businesses.

## **1.3. Reference date of the Census**

The Census was taken as of 14 April 2018. The confirmation of Enumeration Area, the establishment listing, e-Census, and the enumeration were simultaneously conducted within a two-month period from 14 April to 14 June 2018.

## **1.4. Scope and Coverage**

### **1.4.1. Scope:**

All the establishments engaged in non-agriculture economic activities and (registered) agriculture, forestry and fishery economic activities according to NSIC-2018, except Section-O (*Public administration and defense; compulsory social security*), Section-T (*Activities of households as employers; undifferentiated goods- and services- producing activities of households for own use*) and Section-U (*Activities of extraterritorial organizations and bodies*), were included in the scope of National Economic Census 2018. Not registered Agriculture activities of Section A was not covered as such activities have been or under the scope of National Sample Census of Agriculture. Similarly, Section-O was excluded considering the information on the activities are covered from the government sector. As such, Section-T was excluded considering that activities under this section have been conventionally covered partly by the Agriculture Census and partly by the Labor Force Survey. The establishments under Section-U were not covered in the scope of the census as the activities under this section are not practically taken into account to the national accounts aggregates globally and kept outside the scope of the economic census. All establishments engaged in the activities under the sectors of NSIC 2018 mentioned above for revenue generation or for serving the community were considered in the scope of this Economic Census. However, the establishments of mobile nature which keep on moving from one place to another place not having fixed location to operate the activities, Illegal activities like smuggling, gambling, beggary, prostitution, *etc.*, and domestic paid helpers, whether they work in one household or in a number of households, drivers, *etc.* who undertake jobs for others on wages or salaries, and individuals engaged in different types of jobs depending on the availability of work e.g. loading, unloading, helping a mason or a carpenter, doing earthwork for a contractor or individuals working without associated in establishments were kept out of the purview of the NEC.

### **1.5. Coverage:**

Geographically, the Census has covered the entire area, that is, 753 Local levels under 77 district and seven provinces of the country. All establishments except the mentioned excluded sectors were completely enumerated in the economic census.

### **1.6. Enumeration units**

The enumeration unit in the Census was considered as “establishment”. The establishment was defined as follows, according to UN definition:

The establishment is defined as an economic unit that engages, under a single ownership or control - that is, under a single legal entity - in one, or predominantly one, kind of economic activity at a single physical location – for example, a mine, factory or workshop.

In addition, movable establishments such as street business which are doing business at the same place are included. But the mobile establishments which do not have any fixed place for business operation are not included in the Census.

## **Concepts and Definitions of NEC2018**

### **2.1. Economic Activities**

All activities related with production, distribution, marketing, and sales of goods or services are referred to as economic activities. That is, the activities which are carried out for profit or own consumption are considered as the economic activities. Such activities will contribute to the value added of the national production.

### **2.2. Economic Unit**

A unit which performs one or more economic activities for profit, own consumption, or indirect benefit to a community is defined as an economic unit. Such economic unit is used to be a single establishment.

### **2.3. Establishment**

An establishment is defined as an economic unit that engages, under a single ownership or control - that is, under a single legal entity - in one, or predominantly one, kind of economic activity at a single physical location – for example, a mine, a shop, a factory or workshop. It is an establishment that is situated in a single location and in which only a single (non-ancillary) productive activity is operated or in which the principal productive activity accounts for most of the value added.

### **2.4. Broad Industrial Classifications of Economic Activities**

Nepal Standard Industrial Classification (NSIC) has been developed on the basis of International Standard Industrial Classification (ISIC), Rev.4 of all economic activities which classify 21 broad sections (United Nations, 2008). The information on economic activities is collected, tabulated on the basis of NSIC. This report reveals the results of economic census 2018 based on the NSIC broad classifications. The concept and definitions of those broad industrial sections according to ISIC Revision 4 are briefed below:

#### **2.4.1. Section-A: Agriculture, forestry and fishing**

Agriculture, forestry and fishing activities comprise of the exploitation of vegetal and animal natural resources, comprising the activities of growing of crops, raising and breeding of animals, harvesting of timber and other plants, animals or animal products from a farm or their natural habitats. This section also covers fisheries and aquaculture. In Economic Census 2018, only the agriculture, forestry and fisheries establishments registered at government agencies have been considered as economic activities.

#### **2.4.2. Section-B: Mining and quarrying:**

Mining and quarrying section includes the extraction of minerals occurring naturally as solids (coal and ores), liquids (petroleum) or gases (natural gas). Extraction can be achieved by different

methods such as underground or surface mining, well operation, seabed mining *etc.* These activities also include supplementary activities aimed at preparing the crude materials for marketing, for example, crushing, grinding, cleaning, drying, sorting, concentrating ores, liquefaction of natural gas and agglomeration of solid fuels. These operations are often carried out by the units that extracted the resource and/or others located nearby.

#### **2.4.3. Section-C: Manufacturing**

Manufacturing section includes the physical or chemical transformation of materials, substances or components into new product. Substantial alteration, renovation, or reconstruction of goods is generally combined to be manufacturing. The units engaged in manufacturing are often described as plants, factories or mills and characteristically use power-driven machines and materials-handling equipment. However, economic units that transform materials or substances into new products by hand or in the worker's home and those engaged in selling to the general public of products made on the same premises from which they are sold, such as bakeries and custom tailors, are also included in this section. Manufacturing units may process materials or may contract with other units to process their materials for them. Both types of units are included in manufacturing. The output of a manufacturing process may be finished in the sense that it is ready for utilization or consumption, or it may be semi-finished in the sense that it is to become an input for further manufacturing. Assembly of the component parts of manufactured products is considered manufacturing. This includes the assembly of manufactured products from either self-produced or purchased components. The boundaries of manufacturing and the other sectors of the classification system can be somewhat blurry. As a general rule, the activities in the manufacturing section involve the transformation of materials into new products. Their output is a new product.

#### **2.4.4. Section-D: Electricity, gas, steam and air conditioning supply**

The Electricity, gas, steam and air conditioning supply section includes the activity of providing electric power, natural gas, steam, hot water and the like through a permanent infrastructure (network) of lines, mains and pipes. The dimension of the network is not decisive; also included are the distribution of electricity, gas, steam, hot water and the like in industrial parks or residential buildings. This section therefore includes the operation of electric and gas utilities, which generate, control and distribute electric power or gas. Also included is the provision of steam and air-conditioning supply.

#### **2.4.5. Section-E: Water supply; sewerage, waste management and remediation activities**

Water supply; sewerage, waste management and remediation activities section include activities related to the management (including collection, treatment and disposal) of various forms of waste, such as solid or non-solid industrial or household waste, as well as contaminated sites. The output of the waste or sewage treatment process can either be disposed of or become an input into other

production processes. Activities of water supply are also grouped in this section, since they are often carried out in connection with, or by units also engaged in, the treatment of sewage.

#### **2.4.6. Section-F: Construction**

Construction section includes general construction and specialized construction activities for buildings and civil engineering works. It includes new work, repair, additions and alterations, the erection of prefabricated buildings or structures on the site and also construction of a temporary nature. General construction is the construction of entire dwellings, office buildings, stores and other public and utility buildings, farm buildings *etc.*, or the construction of civil engineering works such as motorways, streets, bridges, tunnels, railways, airfields, harbors and other water projects, irrigation systems, sewerage systems, industrial facilities, pipelines and electric lines, sports facilities *etc.* This work can be carried out on own account or on a fee or contract basis. Portions of the work and sometimes even the whole practical work can be subcontracted out. A unit that carries the overall responsibility for a construction project is classified here.

#### **2.4.7. Section-G: Wholesale and retail trade; repair of motor vehicles and motorcycles**

Wholesale and retail trade; repair of motor vehicles and motorcycles section includes wholesale and retail sale (*i.e.* sale without transformation) of any type of goods and the rendering of services incidental to the sale of these goods. Wholesaling and retailing are the final steps in the distribution of goods. Goods bought and sold are also referred to as merchandise. Also included in this section are the repair of motor vehicles and motorcycles.

#### **2.4.8. Section-H: Transportation and Storage**

Transportation and storage section include the provision of passenger or freight transport, whether scheduled or not, by rail, pipeline, road, water or air and associated activities such as terminal and parking facilities, cargo handling, storage *etc.* Included in this section is the renting of transport equipment with driver or operator. Also, postal and courier activities are also included here.

#### **2.4.9. Section-I: Accommodation and food service activities (hotel and restaurant)**

Accommodation and food service activities (hotel and restaurant) section includes the provision of short-stay accommodation for visitors and other travelers and the provision of complete meals and drinks fit for immediate consumption. The amount and type of supplementary services provided within this section can vary widely. It also includes either one or both of hotels and restaurants. This section excludes the provision of long-term accommodation as primary residences, which is classified in Real estate activities (section L). Also excluded is the preparation of food or drinks that are either not fit for immediate consumption or that are sold through independent distribution channels, *i.e.* through wholesale or retail trade activities. The preparation of these foods is classified in Manufacturing (section C).

#### **2.4.10. Section-J: Information and communication**

This section includes the production and distribution of information and cultural products, the provision of the means to transmit or distribute these products, as well as data or communications, information technology activities and the processing of data and other information service activities. The main components of this section are publishing activities, including software publishing, motion picture and sound recording activities, radio and TV broadcasting and programming activities, telecommunications activities and information technology activities and other information service activities.

#### **2.4.11. Section-K: Financial and insurance activities**

Financial and insurance activities section includes financial service activities, including insurance, reinsurance and pension funding activities and activities to support financial services. This section also includes the activities of holding assets, such as activities of holding companies and the activities of trusts, funds and similar financial entities.

#### **2.4.12. Section-L: Real estate activities**

This section includes acting as lessors, agents and/or brokers in one or more of the following: selling or buying real estate, renting real estate, providing other real estate services such as appraising real estate or acting as real estate escrow agents. Activities in this section may be carried out on own or leased property and may be done on a fee or contract basis. Also included is the building of structures, combined with maintaining ownership or leasing of such structures.

#### **2.4.13. Section-M: Professional, scientific and technical activities:**

This section includes specialized professional, scientific and technical activities. These activities require a high degree of training, and make specialized knowledge and skills available to users.

#### **2.4.14. Section-N: Administrative and support service activities:**

This section includes a variety of activities that support general business operations. These activities differ from those in the section of Professional, scientific and technical activities, since their primary purpose is not the transfer of specialized knowledge.

#### **2.4.15. Section-O: Public administration and defense; compulsory social security**

This section includes activities of a governmental nature, normally carried out by the public administration. This includes the enactment and judicial interpretation of laws and their pursuant regulation, as well as the administration of programmes based on them, legislative activities, taxation, national defense, public order and safety, immigration services, foreign affairs and the administration of government programmes. This section also includes compulsory social security activities. In the NEC 2018, the activities under this section have not been covered.

#### **2.4.16. Section-P: Education**

Education section includes public or private education at any level or for any profession, oral or written as well as by radio and television or other means of communication. It includes education by the different establishments in the regular school system at its different levels as well as adult education, literacy programmes, religious education (*madrashas*), technical education, computer education, professional coaching centres, training centres *etc.* Also included are military schools and academies, prison schools *etc.* at their respective levels.

#### **2.4.17. Section-Q: Human health and social work activities:**

Human health and social work activities section includes the provision of health and social work activities. Activities include a wide range of activities, starting from health care provided by trained medical professionals in hospitals and other facilities, over residential care activities that still involve a degree of health care activities to social work activities without any involvement of health care professionals.

#### **2.4.18. Section-R: Arts, entertainment and recreation**

Arts, entertainment and recreation section includes a wide range of activities to meet varied cultural, entertainment and recreational interests of the general public, including live performances, operation of museum sites, gambling, sports and recreation activities.

#### **2.4.19. Section-S: Other service activities**

Other service activities (as a residual category) section includes the activities of membership organizations, the repair of computers and personal and household goods and a variety of personal service activities not covered elsewhere in the classification.

#### **2.4.20. Section-T: Activities of households as employers; undifferentiated goods and services producing activities of households for own use:**

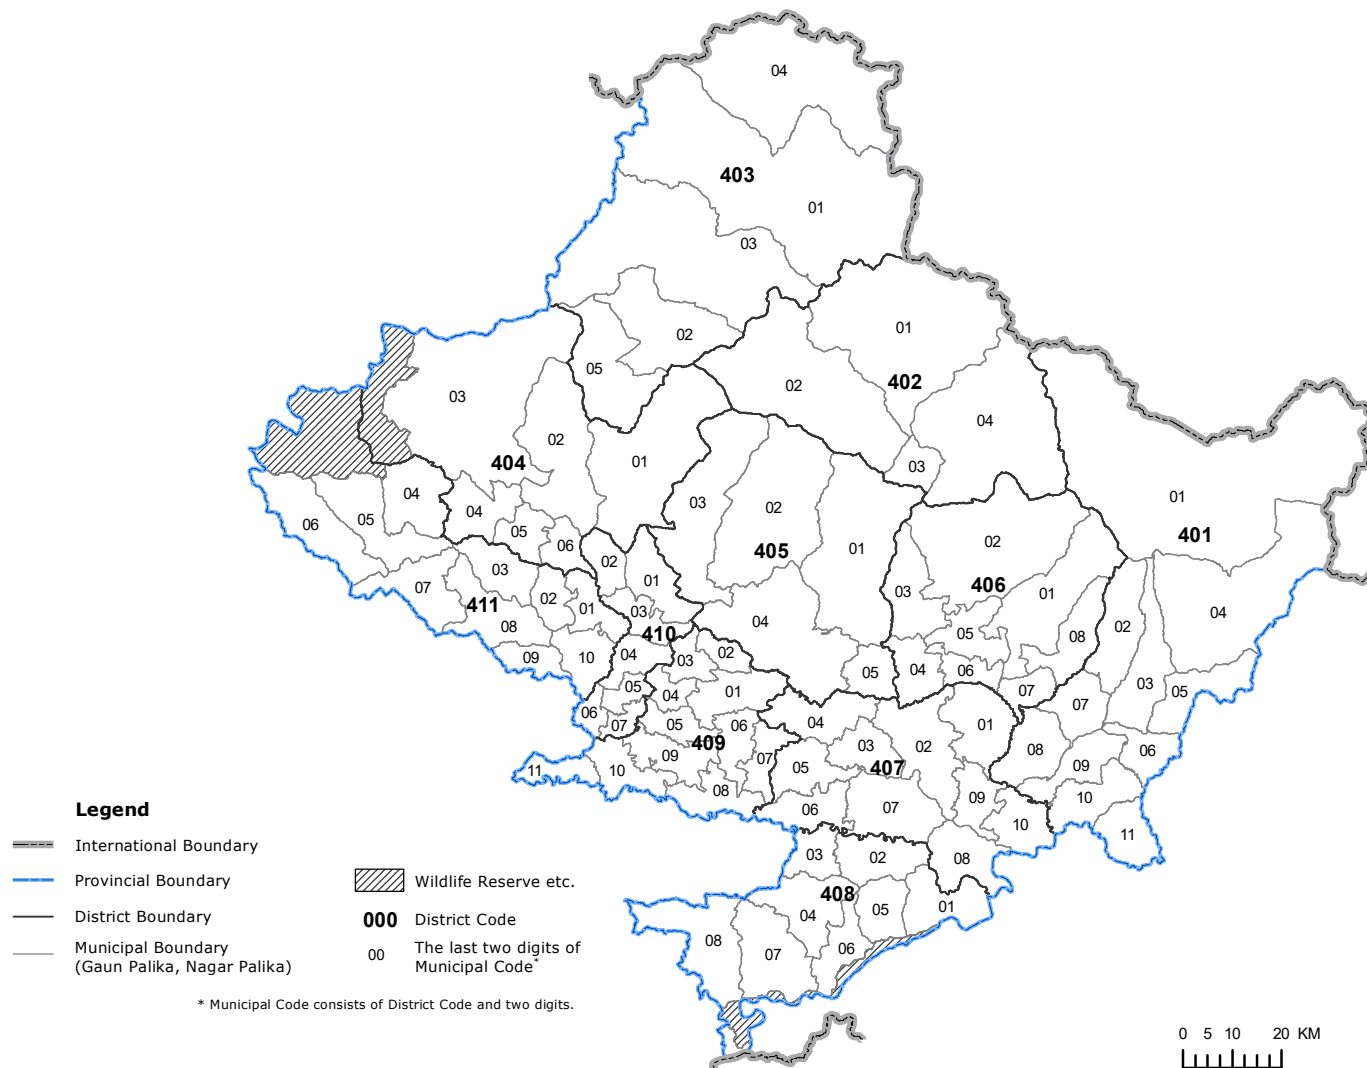

This section includes activities of households as employers of domestic personnel such as maids, cooks, waiters, valets, butlers, laundresses, gardeners, gatekeepers, stable-lads, chauffeurs, caretakers, governesses, babysitters, tutors, secretaries *etc.* This section also includes the undifferentiated subsistence goods-producing and services producing activities of households. Households should be classified here only if it is impossible to identify a primary activity for the subsistence activities of the household. If the household engages in market activities, it should be classified according to the primary market activity carried out. In NEC 2018, the activities under this section have not been covered.

#### **2.4.21. Section-U: Activities of extraterritorial organizations and bodies:**

Activities of international organizations such as the United Nations and the specialized agencies of

the United Nations system, regional bodies *etc.*, the International Monetary Fund, the World Bank, the World Customs Organization, the Organization for Economic Co-operation and Development, the Organization of Petroleum Exporting Countries, the European Communities, the European Free Trade Association, Asian Development Bank, FAO, ILO *etc.* This section also includes activities of diplomatic and consular missions when being determined by the country of their location rather than by the country they represent. In NEC 2018, the activities under this section have not been covered.
