The Country Mouse and the City Mouse

In a snug little cot lived a fat little mouse,
 Who enjoyed, unmolested, the range of the house;
 With plain food content, she would breakfast on cheese,
 She dined upon bacon, and supped on grey peas.

A friend from the town to the cottage did stray,
 And he said he was come a short visit to pay;
 So the mouse spread her table as gay as you please,
 And brought the nice bacon and charming grey peas.

The visitor frowned, and he thought to be witty:
 Cried he, "You must know, I come from the city,
 Where we all should be shocked at provisions like these,
 For we never eat bacon and horrid grey peas.

- (a) Where did the country mouse live?
- (b) What were the daily meals of the country mouse?
- (c) Why did the town mouse go to the country?
- (d) Was the city mouse happy with the food in the village? Why, why not?
- (e) Which mouse do you think has showed good behaviour?

An infrastructure of national pride, Kathmandu-Terai/Madhesh Fast Track (KTFT) is a mega highway project of strategic importance in Nepal. The 72.5 km long fast track will connect Khokana, Lalitpur with Nijgadh, Bara at the East West Highway junction. The project consists of road with the total length of 55.49 km, 87 bridges with the total

length of 10.60 km, and three twin tunnels with the total length of 6.41 km. The total travel time is estimated as one hour.

Benefits

The fast track will enhance the country's economic growth and create job opportunities as well. There are so many benefits from KTFT which are the blessings that bring prosperity and progress. Here are several potential benefits that KTFT will bring to our nation.

A. Accelerate the country's economic growth

The construction of KTFT contributes to connect Kathmandu and Terai closer. Since the travel distance is lesser in KTFT, the daily fuel saving could potentially reach more than NRs. five billion. This proximity is sure to have several positive implications on the economic growth of our country.

Thursday, 27th May

Today school ended for summer vacation. I had a bit dreadful day because I fell out with my friend for a bit but now we are friends, so I am a happy human. Tomorrow it is mum's birthday. I am so excited as we might go out to dinner.

On Saturday, I am playing a football match. On Wednesday next week, perhaps I may go to cinema with Ayesha to watch Street Dance 3D. I have heard it is good. Another day next week, I might go to my cousin's house for sleep over. Another thing, we have got a project work from our Social Studies teacher. We've been told to collect information on historical and cultural sites of our district. So we are going to request our parents to drop us at the stops next weekends. I think we, the whole class are going together. How interesting!

Friday, 28th May

It's Mum's birthday! We are going to Shani Village Resort to have dinner. I can't tell you how old she is. I am afraid but I can tell you she doesn't look her age. Today, I went to temple early with Mum and dad. We prayed for the long life of mum. The whole day I was excited and thinking of dining at a restaurant. Late afternoon, I watched cricket match between Australia and England. The whole next week, I am planning to enjoy a lot with my family, relatives and friends. Right now, I am excited at the thought of delicious dinner after sometime. Mum's calling me. Sorry diary, see you tomorrow.

4. Read the following text and do the tasks that follow.**15**

We have an old saying 'Beauty is only skin deep'. People generally praise, support and award those who look beautiful and attractive. In contrast, the less attractive, shorter, deformed and disable people are generally ill-treated, discriminated, insulted, less paid, less graded, etc.

People with deformities, scars and other physical defects are deprived of good jobs, considerable pay and handsome opportunities. Discrimination is everywhere for all-aged people. Prettier babies are treated better than plain or ugly looking ones. Not only strangers, even the parents love, kiss, talk and play more with their cute babies but give less attention to the plain babies. At schools, attractive children are likely to draw more attention of the teachers and get higher grades on their achievement tests. The reason may be that their good looks win praise, attention and encouragement from teachers. In a 1975 study, teachers were asked to evaluate some students based on their photos. It was found that the students with ugly looks were judged to be slow learners while the others with pretty photo were considered to be smart.

Conventionally people believe that people with good looks are smart. Even these days, outwardly unattractive and ugly people are teased and addressed as witches or monsters in many places. The cinemas and fairy tales seem to have been playing crucial roles in cultivating this kind of attitude. In such stories, the heroes are cast handsome and the heroines beautiful while the villains are ugly and unattractive. People with physical defects, disability, deformities, etc. are often discriminated. They are less privileged and deprived of their birth rights and opportunities and they have to face insult, discrimination, segregation, humiliation and harsh treatment.

We should judge human fellows not on the basis of how they look but on the ground of their knowledge, virtues, vision of life, inner beauty, humanity and their contribution to society. We can take the example of Socrates from the ancient Greece. He was physically very ugly. However, he is always respected for his vision, wisdom and beauty.
