Decision to Establish an e-Museum at the Embassy of Nepal in Muscat

The diplomatic relation between the Nepal and the Sultanate of Oman was formally established on January 21, 1977. Since then, the relations between the two countries have consistently remained warm, cordial, and friendly, based on mutual trust and understanding.

Over the years, both nations have engaged in a range of bilateral activities, including high-level visits, the signing of Memoranda of Understanding (MoUs), appointment of Ambassadors, and the organization of various diplomatic engagements.

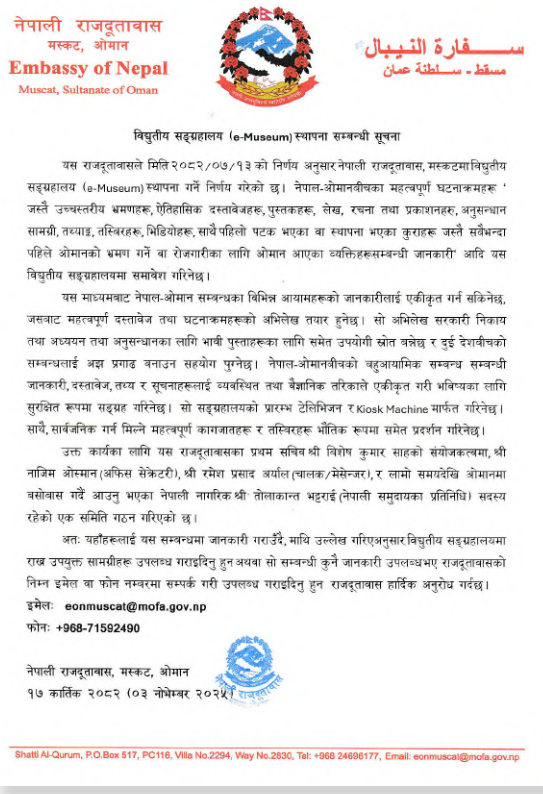

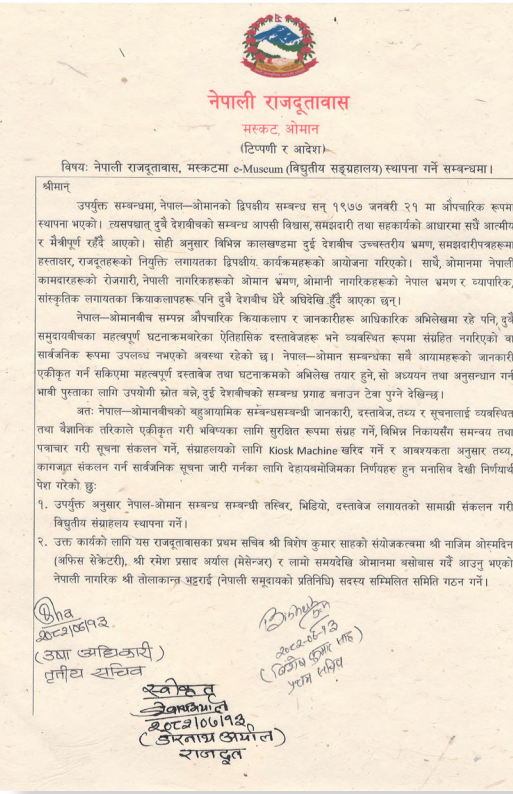

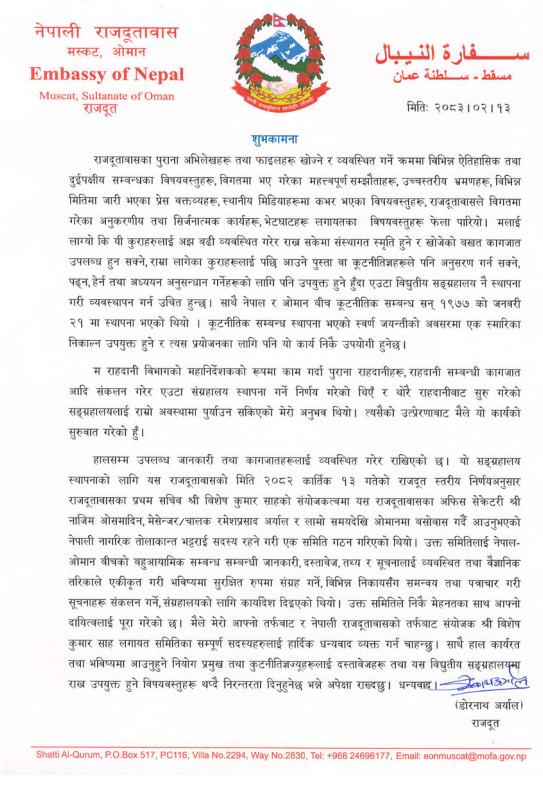

While official records of formal engagements between Nepal and Oman are maintained, it has been observed that historical documents and records reflecting significant developments of the two countries have not yet been systematically archived or made publicly accessible. If the diverse dimensions of Nepal-Oman relations could be comprehensively integrated, it would help preserve important documents and historical milestones, serve as a valuable resource for study and research for future generations. The Embassy also believes that it will also help to strengthen and expand our bilateral relations.

In this context, the Embassy of Nepal in Muscat has formally decided (Ambassador level) on 30 October 2025 corresponding to 2082 Kartik 13 BS to establish an e-Museum (Electronic Museum). The initiative aims to systematically and scientifically collect, integrate, and preserve information,

documents, facts, and data related to the multifaceted Nepal-Oman relationship for future generations.

As per the decision a committee was formed under the coordination of Mr. Bishesh Kumar Sah, First Secretary at the Embassy comprising other members: Mr. Najm Osmalddin (Office Secretary), Mr. Ramesh Prasad Aryal, (Messenger/driver) and

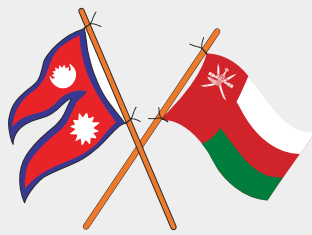

Mr. Tolakanta Bhattarai (Representative of the Nepali community in Oman). The Committee was assigned to coordinate and correspond with various institutions to gather relevant materials, procurement of a kiosk machine for the museum, issuance of public notices to collect historical documents, information, photographs, videos and other materials related to Nepal-Oman relations.
