PREFACE

Department of Customs, as the primary source of Nepal's foreign trade (of goods) data, regularly publishes the annual statistics of Nepal's foreign trade after the end of a fiscal year. Nepal Foreign Trade Statistics – 2076/77 (2019/20 AD) is another series of this publication which covers Nepal's annual foreign trade in goods over the fiscal year 2076/77. The statistical information presented in this book are based on the data generated from the Automated System for Customs Data (ASYCUDA) World software which has been executed in twenty-four customs offices of Nepal.

This book attempts to present a brief summary of Nepal's foreign trade performance in FY 2076/77 and provide a disaggregated level of foreign trade information by various important components such as trade statistics by chapters of Harmonized system, by commodity, by trading partner country, by imports duty and by customs office. I hope that all the concerned users will find this book useful. Any valuable suggestions about this book will be always appreciated.

In the past, the book was generally prepared solely by the staffs of the Department of Customs. However, this time, this book has been prepared by the collective effort of the staffs of the Department of Customs along with the representative staff of the Nepal Rastra Bank, the Trade and Export Promotion Centre (TEPC). and the Ministry of Industry, Commerce and Supply. These government agencies are the main user of the foreign trade data compiled by the Department of Customs. The purpose behind incorporating the staff of these agencies is to engender a sense of ownership over this publication among the stakeholders of Nepal's foreign trade statistics.

I appreciate Deputy Director Generals Mr. Shyam Prasad Bhandari and Mr. Bhumi Ram Sharma for the overall guidance during the publication. In addition, I would like to thank all the members of the working group coordinated by Mr. Anil Thapa, Director of the Statistics Management Section, Department of Customs who were assigned to develop and design the book.

EXECUTIVE SUMMARY

Nepal's total foreign trade (in goods) was in a growing trend since the last four years. However, there was a declining trend in FY 2076/77. Nepal's total merchandise trade decreased by 14.59 percent to NPR 1294.50 billion in FY 2076/77 from NPR 1515.64 billion in fiscal year 2075/76. Total export receipts slightly increased by 0.62 percent from NPR 97.11 billion in fiscal year 2075/76 to NPR 97.71 billion in fiscal year 2076/77. Improvement in export value was mainly attributed to newly introduced export commodities in Nepal's export basket, i.e. refined palm oil and soybean oil. In this year, Nepal's import has decreased by 15.63 percent to NPR 1196.80 billion from NPR 1418.53 billion in fiscal year 2075/76. Even though a declining trend in import trade was already witnessed in the first eight months of fiscal year 2076/77, the overall decrease in import was also driven by the effect of COVID-19 pandemic which began in Nepal since the end of March 2020. In this year, Nepal's trade deficit has dropped by 16.83 percent to NPR 1099.09 billion. The value had reached to NPR 1321.43 billion in fiscal year 2075/76. However, an unfavorable balance of trade in goods persisted in this fiscal year too.
