#### Preface

Curriculum Development Centre (CDC) revises curricula and textbooks on a regular basis to make education relevant to changed context. Keeping to the tradition, the new Basic Level Curriculum (Grades 1-3) developed as an integrated form is based on the guiding principles of National Curriculum Framework 2019. To see their relevance and practiculaties, both the curriculum and the book of Grade 1 were piloted in over 100 schools across the country in the academic year 2076 BS. The curriculum has been updated on the basis of the feedback obtained from different stakeholders. Likewise, this book has also been revised on the basis of the updated version of the integrated curriculum and as well as the feedback obtained from the piloting.

The book is organized under eleven multidisciplinary themes and incorporates the competencies and the language functions outlined in the curriculum. Due to this, it is expected to help in integrated teaching and learning process. This book can be used as a textbook as well as a workbook.

This book was initially developed by Prof. Dr. Laxman Gnawali, Mr. Ramesh Prasad Ghimire, Mr. Ramesh Dhakal and Mr. Uddhav Bhattarai. Based on the feedback received from piloting, it was revised and edited by a team of experts comprising Mr. Nim Prakash Singh Rathour, Mr. Nabin Kumar Khadka and Mr. Shankar Adhikari. Various people have contributed to bring this book in this form, notably; Dr. Lekha Nath Poudel, Mr. Tukaraj Adhikari, Prof. Dr. Bal Mukunda Bhandari, Dr. Gangaram Gautam, Dr. Gopal Prasad Pandey, Mr. Purna Bahadur Lamichhane, Mr. Gangadhar Hada, Mr. Mahendra Kumar Shrestha, Ms. Rani Jha and Mr. Kedar Bahadur Tamang. The illustration of the book was done by Mr. Ujwal Tamang and Mr. Sonam Tamang and the layout design by Mr. Khados Sunuwar and Mr. Bhakta Bahadur Karki. The Centre would like to extend its sincere thanks to all the people who have contributed for the development of this book.

An attempt has been made to make this book accessible and learner friendly. In order to make its effective use, the teacher needs to be a facilitator in the classroom. The Centre believes that it will also work as a self-access learning resource for the students.

The Centre always welcomes constructive feedback for bringing improvements in its materials.
