Foreword

Tourism is one of the potential sectors for the economic development of Nepal. Being a labor-intensive service sector, it might be the major source of employment in both urban and rural areas and will help to reduce poverty level in the country. Nepal has initiated various activities for tourism promotion in international as well as domestic market. The country has celebrated “Nepal Tourism Year 2011”, “Visit Lumbini Year 2012”, and “Everest Diamond jubilee 2013”. Tourism statistics is an essential element for placating and the development of tourism activities.

As in the earlier years, the Ministry of Culture, Tourism and Civil Aviation is pleased to bring “Nepal Tourism Statistics 2014” as its annual publication. It covers information on inbound tourist such as number of international visitors by nationality, demographic composition, length of stay, purpose of visit, etc. Similarly, it includes information on outbound tourist like Nepalese nationals going abroad by purpose and country of destination. Tourist arrival to Nepal is not up to the expectation. To address the problem, government has already commenced necessary process for the construction of two regional international airports, one in Bhairahawa and the other in Pokhara. Once the two airports come into operation I hope the number of tourist arrival to Nepal will be gradually improved.

The main source of in and out bound tourist included in this publication is disembarkation and embarkation cards filled up by incoming and outgoing passengers. Apart from breakdown of tourist, the publication also includes tourism related data such as total foreign earnings, earnings from tourism, international and domestic airlines movement, hotel occupancy, mountaineering, trekking etc. This publication will be very helpful to fulfill the data gap and explore possibility for the development of tourism sector.

I believe that the information included in this publication will be useful to all the researcher, planners, entrepreneurs, and policy makers involved and interested in tourism sector.

I would like to thank all the government and non-government organizations for providing necessary information. I also would like to thank all those who have been involved in bringing this publication. The ministry always welcomes constructive comments and suggestions for improving this publication in the future.

Ranjan Krishna Aryal
Officiating Secretary

July 2014
