# EDUCATION MANAGEMENT INFORMATION SYSTEM

REPORT ON HIGHER EDUCATION 2016/17 A.D. (2073/74 B.S.) NEPAL

# FOREWORD

The development of Higher Education Information System (HEMIS) has been one of the crucial tasks of UGC in its endeavor towards implementing the national Higher Education Policy that emphasized on credible and accountable system of higher education by ensuring its quality, increasing the relevance to national priorities, making it equitable in terms of access, and enhancing academic competitiveness. Higher Education Reform Project (HERP, 2014-2020) supported by the World Bank facilitates the policy implementation including the development of HEMIS. The publication of annual statistical report is one of the main aspects of HEMIS development. This report is the tenth publication in this line. The development of HEMIS is based on a framework of systemic and program indicators, tools for data collection, and parametric, situational as well as trend analyses. This report covers major parts of the H-EMIS indicators and analyses.

With the efforts put on higher education system development, stakeholders are increasingly feeling the importance of verifiable data relating to national higher education policy, emphasis on ensuring the access to higher education on the basis of aptitude and equity, criteria based quality assurance, priority based relevance, research based innovation and development, performance based public funding, and shared ownership with public and private stakeholders in the development, operation and management. The challenge is to establish EMIS in each of the higher education institutions in the country with coherent and verifiable data; to publish and share data regularly and on time; and most importantly, to inculcate the culture of data use in planning, monitoring, reform and other relevant development activities.

A comprehensive and coordinated HEMIS is very crucial for the country, and thus, UGC is aiming to achieve this by supporting Universities in strengthening their EMIS including that of their system of constituent as well as affiliated campuses. The approach is to develop a national system at UGC to which EMIS modules of all universities can be linked. The main strategy is to develop a web-based compatible EMIS system. Challenges persists in developing such comprehensive EMIS; the first and foremost challenge relates to data generation in a credible and versatile way that supports culmination of publication of verifiable data and real time data sharing. The second challenge relates to agreeing to and use of uniform format for data generation, publication and sharing compatibly. UGC has been facing recurrence of these challenges every year while collecting data for the annual publication EMIS report.

Nonetheless, there is high demand for the annual EMIS Report which indicates increasing concern for data and their uses. Besides, UGC EMIS section is also addressing data enquiries from concerned stakeholders including policy level agencies, ministries, and researchers. Particularly, information related to higher education institutions, programs, students, faculty members, and financing are foci of data attention. The data disaggregated by important variables and analyzed in terms of the indicators have helped to provide insights into the related issues. We believe that this publication benefits all the people concerned with higher education planning, program developing, monitoring, and research. UGC would highly appreciate any feedback and suggestions from the readers on this report as well as the EMIS system development.

**Prof. Dev Raj Adhikari**
Member Secretary, UGC

# TABLE OF CONTENTS

# EXECUTIVE SUMMARY

This annual EMIS Report 2016/17, the tenth edition, shows the status of higher education in Nepal in year 2016/17, including number of higher education institutions, their types, and number of students enrolled. The report also provides categorical information on gender parity, student-teacher ratio, and the percentage of students graduated. Altogether there are eleven full universities and four medical academies (public higher education institutions) and their constituent and affiliated campuses providing education on various programs in several disciplines. The university campuses are categorized into two types: constituent and affiliated. The affiliated campuses are either private or community-based.

In the year 2016/17, altogether 1408 campuses, among which 99 constituent (6.97 percent) campuses, 777 private (55.22 percent) and 532 community (37.81 percent) campuses are found to be in operation. Tribhuvan University (TU) has 1161 campuses (60 constituent and 1101 affiliated campuses). The other major universities in terms of student number are PU, PokU, and KU. These universities have more than 15000 students and more than 20 campuses; PU has 131 (9.30 percent) campuses, PoKU has 62 (4.40 percent) campuses, KU has 21 (1.49 percent) campuses. Each medical academy has only one constituent campus each.

In terms of geographical distribution, 59.16 percent (833) campuses are located in the Hill (highest), 35.65 percent (502) campuses operate in the Tarai and 5.18 percent (73) campuses in the Mountain. Similarly, 613 (43.5 percent) campuses are located in Province 3, third province, 197 (14 percent) in Province 5, 196 (13.92 percent) in Province 1, 126 ( 8.95 percent) in Province 2, 124 (8.81 percent) in Province 4, 96 (6.81 percent) in Province 7 and 56 (3.98 percent) campuses are located in Province 6. Among the campuses, 1270 campuses offer Bachelor's programs whereas 258 campuses offer Master's programs.

In year 2016/17, a total 371184 students were enrolled in higher education. TU has enrolled 289566 (78.01 percent) students, PokU has enrolled 26895 (7.25 percent) students, PU has 27265 (7.35 percent) enrolled students and KU has enrolled 17080 (4.60 percent) students.  The rest of the students were enrolled in other universities and medical academies. Among the students enrolled, 76.06 percent were enrolled in general programs in comparison to 23.93 percent in technical programs. Student enrollment in Management, Education, and Humanities and Social Sciences stood at 39.86%, 22.53% and 13.24% respectively as compared to 8.52% inScience and Technology, 6.94% Medicine, and 7.55% in Engineering.

The distribution of students across the ecological belts is uneven. Among the students enrolled, 63.30% are enrolled in institutions located in the Hill, 34.75% students are enrolled in Tarai-based institutions, and the institutions located in the Mountain region have accounted for only 1.95% of student population. Similarly Province 3 has the highest number of students with a population of 199851 (53.84%). Likewise, 45130 (12.16%), 39890 (10.75%), 28746 (7.74%) of student population is enrolled in Province 5, Province 1 and Province 4 respectively. Institutions located in Province 2, Province 7 and Province 6 have respectively received 23962 (6.64%) and 21590 (5.82%) and 12015 (3.24% of total students enrolled.

Private campuses have the highest number of students enrolled. The share of student enrolment in the community campuses is 28.46 percent, whereas constituent campuses and private campuses have received 32.66% and 38.87% of students, respectively.

### *Share of Girls in HE Enrolment*

The overall enrollment of female students in HE in Nepal is about 52.57 percent. The enrolled female students account for 54.64% at TU, followed by PU (50.77%), KU (47.45%), and PokU (40.25). Similarly, the portion of female students

enrolled in medical academies—BPKIHS, PAHS, and NAMS respectively stands at 48.62%, 38.15%, and 62.68%.

In terms of campus types, the biggest share (66.15%) of enrollment of female students is observed in community campuses as compared to 49.17% in private and 44.77% in constituent campuses.

The portion of female enrollment is highest in the Faculty of Education (66.91%) followed by 60.44% in Medicine, 51.38% in Humanities and Social Sciences, and 54.97% in Management. Among the students enrolled, the female student population accounts for 53.81% in Bachelor's programs and 46.52% in Master's programs.

**Gender Parity Index (GPI)**

GPI of HE in year 2016/17 is 1.11 with slight variation across the type of educational institutions. The GPI of community campuses is 1.95, constituent campuses is 0.81 and private campus is 0.97. The GPI in Bachelor's programs is 1.17 as compared to 0.87 in Master's programs. The GPI among teaching faculty is as follows: 1.53 in Medicine, 2.02 in Education, 1.22 in Management, 1.06 in Humanities and Social Sciences, 0.54 in Science and Technology, and 0.17 in Engineering.

**Pass Rate**

In the year 2016/17, the pass rate at TU, LBU, and BPKIHS remained at 27.97%, 63.21%, and 92.95% respectively. The pass rate of faculties of TU in bachelor level of study is 28.14 percent in law, 40.75 percent in humanities and social sciences, 18.20 percent in education, 28.29 percent in management, and 33.13 percent in science and technology. Similarly, the pass rate of different faculties in master level of education is 61.5 percent in law, 68.73 percent in humanities and social sciences and 52.38 percent in education. The average pass rate of the bachelor level of study is 26.61 percent and for master level of study is 61.8 percent.

**Graduates**

The number of graduates included in this report is based only on the number of students included in the grace list prepared by the related universities for the convocation programs. In 2016/17, a total of 90922 students graduated, among them 71653 students graduated from Bachelor's and 19287 students graduated from Master's and other higher level programs.

**Gross Enrollment Ratio (GER)**

The Gross Enrolment Ratio (GER) for higher education remained 14.87 in Bachelor's level and 6.24 in Master's level.

**Public Financing**

The universities have been receiving block grants (i.e. regular and development grants) and the community campuses receive small token grants. In case of medical academies, the funds are made available directly through the Ministry of Health and Population. The grants provided to the universities in the year 2016/17 is 9117.04 million.

**Teachers**

In the year 2016/17, the total numbers of teaching staffs (including instructors) is 9154, among them around 55.89% are Lecturers, 23.96% are Readers and 9.18% are Professors.

**Student to Teacher Ratio (STR)**

The overall average student-teacher ratios (number of students per teacher) are as follows: TU (12.48:1), KU (36.4:1), MWU (17.81:1), FWU (20.99:1) PokU (18.43:1), BPKIHS (7:1), PAHS (1.20:1), NAMS (2.65:1) and LBU(0.98:1)

## Introduction

The University Grants Commission (UGC) publishes basic statistical information about higher education, including Bachelor's, Postgraduate Diploma (PGD), Masters, M. Phil., and Ph.D.) through its annual publication in the form of EMIS report. The report presents information through disaggregated and comprehensive data.

UGC is currently in the process of strengthening the Education Management Information System (EMIS) under the Higher Education Report Project (HERP, 2015 – 2020) supported by the World Bank.  It was initiated under the Second Higher education Project (SHEP, 2007-2014) also with the support from The World Bank. The main purpose of EMIS is to ensure quality of the data regarding higher education by standardizing the process of data collection and their effective management and timely publication. Accordingly, a set of EMIS indicators have been prepared and statistical data forms have been developed.

This is our tenth attempt to bring out a comprehensive report of statistical information about higher education with the purpose of providing adequate, accurate, timely and reliable data to the education stakeholders.

This EMIS Report on higher education has covered a broad range of topics that include information about higher education institutions (universities, medical academies and their campuses), student enrolment, gross enrollment rates (GER), pass rates, gender parity index (GPI), graduates, teachers, public financing, higher education system, trend analysis and academic programs.

### 1.1 Organization of the Report

There are twelve sections in the report. The first section provides introduction to the report, the second provides background information on universities, number of campuses, distribution of the campuses by the provinces and the third gives university-wise information on enrolment status, type of campuses, location, and level of education.

Section four offers data on GPI. Section five provides information on pass rates among universities. Section six presents information related to the distribution of graduates across universities. Section seven provides the GER for Bachelor's and Master's degrees, and also for higher education as a whole.

Section eight presents information on public financing for universities channeled through the UGC. Information on teachers is presented in the section nine. Section ten lists the average student/teacher Ratio (STR) in the constituent campuses of the universities. Section eleven provides information on student enrolment. The final section consists of analyses of trends of number of campuses, enrolment, graduates, and public financing.

The annexure is followed by the main text of the report. It includes a total of seven annexes. Annex one provides definitions of levels used in the report. The second contans a brief description of higher education system in Nepal and the third annex presents brief descriptions of the universities and academies. Annex four explains the process used in preparing the report. Annex five presents detailed enrollment in each campuses. The remaining two annexes, sixth and seventh, present EMIS indicators and a brief introduction of UGC.

### 1.2 Methodology

This report was prepared using the data and information provided by the concerned universities through their planning divisions, Office of the Controller' of Examination (OCE) and Dean's Offices, as well as various government agencies. Relevant documents from UGC, universities, planning divisions, OCE, Dean Offices also were used to prepare this report.

The pre-defined EMIS indicators of higher education together with its dummy tables have been used as a basis. The data were collected from OCE of universities.

### 1.2.1 Data Collection

**Tools:** After the establishment of EMIS section in the UGC, it first identified and prepared higher education system indicators .

### 1.2.2  Data Processing:

The EMIS section has created a simple database system in order to store and manage the data. The system is maintained carefully so as to have control over the collected data, their coding, entry and verification.

### 1.3 Scope and Limitations

Data collection process has been very time consuming as all of the universities have not maintained proper computerized information system.

### 1.4 Data in Maps

Four maps are developed for the pictorial representation of the distribution of campuses and students in each Province.

## Universities and Campuses

Higher education in Nepal is provided by the universities through their central departments, constituent and affiliated campuses and medical academies. Currently there are eleven universities and four medical academies.

The universities are: Tribhuvan Universtiy (TU), Nepal Sanskrit University (NSU), Kathmandu University (KU), Pokhara University (PokU), Purbanchal University (PU), Lumbini Bauddha University (LBU), Agriculture and Forestry University (AFU), Mid Western University (MWU), and Far Western University (FWU), Nepal Open University (NOU) and Rajarshi Janak University. The medial academies are: National Academy of Medical Sciences (NAMS), Patan Academy of Health Sciences (PAHS), BP Koilara Institute of Health Sciences (BPKIHS), Karnali Academy of Health Sciences (KAHS).

Different institutions/faculties/schools have been established in the universities and under the faculties several programs/courses are offered at the central departments, constituent campuses and affiliated campuses. The faculties are controlled by the Dean's office of the university; for each faculty there is one Dean's office.

Bachelors and Masters are the two major levels of study offered by the universities. Most of the Bachelor's programs are of four years though some programs such as medical programs are of five years. Master's programs are of two years. PhD programs are offered in constituent campuses of some universities.

The constituent campuses are managed directly by the concerned university and are part and parcel of the universities. Affiliated campuses are controlled and managed by non-governmental organizations and their academic programs are affiliated to universities. The affiliated campuses work under the jurisdiction of respective affiliating universities. The affiliated campuses teach courses developed by their universities; exams in such campuses are conducted by the affiliating universities, who are also responsible for publishing results.

Affiliated campuses are further categorized into private and community campuses; private campuses are controlled and managed by private organizations under the rules and regulations of the concerned university; whereas community campuses are controlled and managed by the stakeholders of the community with non-profit motive as per the rules and regulations of the concerned university. Affiliated campuses have considerable degree of administrative and financial autonomy.

Table 2.5 presents the number of campuses each university has with different level of education offered. Campuses offering Bachelor's level of education outnumber those offering Master's level of education. While 1270 campuses provide Bachelor's level of education, only 258 campuses offer Master's programs. Several campuses run both Bachelor's and Master's programs.

Table 2.6 shows the distribution of campuses of each university by type. The number of private campuses is higher compared to other type of campuses. The constituent campuses governed and managed by government are fewer in number; only 99 among 1408 campuses, less than 10%, are constituent campuses.

# SECTION - 3

## Enrollment in Higher Education

In the year 2016/17, 371,184 students were enrolled in 1408 campuses of eleven universities and four medical academies.

This chapter presents information on number of students enrolled in universities, number of teaching faculties, level of education (study) provided, types of campuses and province-wise location of higher education institutions. It also presents data related to enrollment distribution under various categories such as university, faculty, level of education, type of campus, and location.

Table 3.1 shows the distribution of students in nine universities and three medical academies. The fourth and fifth columns of the table show the total number of students and share of student population among universities. A large number of students (78.01%) is seen to have enrolled in Tribhuvan university (TU); the number of students enrolled in other universities is significantly lower (less than 10%) as compared to TU.

Table 3.4 presents the distribution of students in twelve different faculties. Management, Education and Humanities and Social Sciences have received a large number of students compared with other faculties. Technical faculties: Science and Technology, Engineering, Medicine, Animal Science Veterinary Science and Fisheries, Agriculture, and Forestry have enrolled less than ten percent of students.
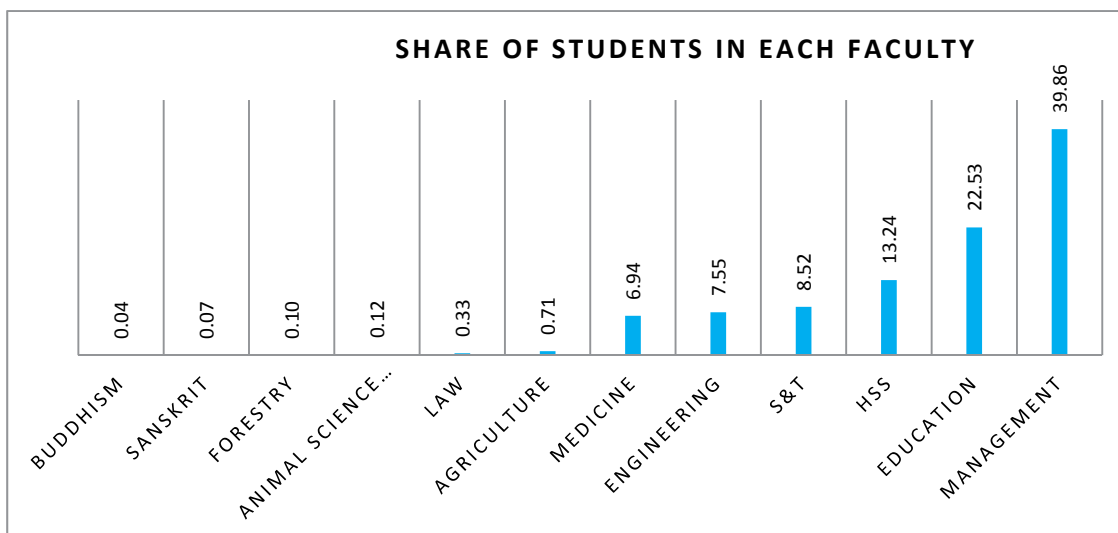

**Figure 3.2 Share of students in different faculties**

Bachelor's and Master's degrees have remained the main programs offered by the universities; PhD level of study is provided by TU, KU, LBU, NSU and LBU.

**Table 3.5 Student enrollment in different level of study**

Table 3.5 presents the distribution of students in different level of education (study). From the given table it can be seen that most of the students are not continuing their studies after they have completed the Bachelor's level. The share of students in Master's level is very low as compared to Bachelor's level.

Table 3.6 shows student enrollment in different type of campuses by level of education. Private campuses have enrolled a huge number of students in Bachelor's level as compared to constituent and community campuses. But, private campuses have enrolled a significantly lesser number of students in Master's programs.

## Gender Parity Index

Gender Parity Index (GPI) tells us about the access of girl students to education. It is one of the most important indicators used to measure the participations of girls in higher education. GPI in higher education is expressed as the ratio of the number of girls to the number of boys enrolled in higher education. A value of near one indicates equality, less than 1 disparity in favor of boys, and a value larger than 1 means disparity in favor of girls.

In 2016/17, the GPI in higher education enrollment in Nepal is 1.12, which means the enrollment of girls is higher than the boys.

## Gross Enrollment Ratio (GER)

The United Nations Educational, Scientific and Cultural Organization (UNESCO) describes 'Gross Enrollment Ratio' as the total enrollment within a country in a specific level of education, regardless of age, expressed as a percentage of the population in the official age group corresponding to this level of education. The Gross Enrollment Ratio gives information on the accessibility to and participation of the population of particular age groups in higher education.

In this context, six year age group span (19-24) is used to determine the GER for higher education. Students of the 19-22 age group correspond to Bachelor's level and the 23-24 age group to Master's level.

### Table 7.1 −Higher Education GER

## PUBLIC FINANCING FOR HIGHER EDUCATION

Universities in Nepal receive financial support from the government through the Ministry of Education, and it is channelized via University Grants Commission. However, medical academies receive financial support for higher education directly from the Ministry of Health and Population. The grants provided to the universities, however, depend on the nature of the university.

## Teachers in Higher Education

This section provides information about the number of teachers in the constituent campuses of the universities. The Universities have categorized teachers in five different levels according to the experience, research publications, and educational qualification. The five categories of teachers in the order of decreasing status are:

- Professors
- Readers/Associate Professors
- Assist. Prof/Lecturer
- Assistant Lecturers
- Others (Including Instructors)

## Student – Teacher Ratios

Student-Teacher ratio (STR) measures the average number of students per teacher. It is calculated by total number of students divided by total number of teachers.

In this section, Student to Teacher ratio of the constituent colleges of Universities is presented.

** *For first three years teachers of both community and constituent campuses and for later years only teachers of constituent campuses*

From the data presented in the table 12.1, the following trends are observed:

- The percentage increased/decreased in the number of campuses from 2010, 2011, 2012, 2013, 2014, 2015 and 2016 are as follows: 4.3, 12.5, 7.3, 0, 2.7 and 0.07 respectively.
- The percentage increased/decreased student enrollment in the years 2010, 2011, 2012, 2013, 2014, 2015, 2016 are 9, 25.6, -18.1, -13.8, -8.5 and 2.8 respectively.
- The number of female enrolment is increasing every year. The percentage increase in the female enrolment during the years 2010, 2011, 2012, 2013, and 2014 are 18, 33, -23, 0.6, -8.9 and 3.5 respectively.
- Graduate numbers are based on number of students applied for convocation, which is less than the actual number of graduates.

Table 12.2 shows that trend in the number of three types of campuses. The trend of constituent campuses is steady while the trend of affiliated campuses is in the increasing order with each year. Affiliated campuses are increasing each year; it was 485 in 2005, and 1309 in 2015. It is a significant increment.

1. No clear trend is observed in public financing to explain its effect on the quality education.
2. Public financing per student is high for AFU, NSU, LBU.
3. Financing per student for the constituent campuses is different from that of the community campuses.

## Brief Description of Higher Education System of Nepal

Education imparted after the higher secondary level or the 12th standard or PCL is considered as Higher education in Nepal. At present, there are eleven universities–TU, NSU, KU, PU, PokU, LBU, FWU, MWU, AFU, NOU, RJU and four autonomous academic institutions-NAMS, BPKIHS, PAHS and KAHS that offer higher education in Nepal. Nepal Open University (NOU) and RJU (Rajarshi Janak **U**niversity) are two newly opened universities. The universities have two types of campuses: constituent campuses – campuses directly managed and administered including financial management by the concerned university; and affiliated campuses – campuses whose academic programs are affiliated to a university, but managed and administered including financing either by private individual/organization (private campuses) or by local community stakeholders (community campuses). The academic activities of both types of campuses are governed by the rules and regulations of the concerned university. There are altogether, 1407 campuses in 2016/17 (99 constituent, 532 community, and 777 private) with 371184 students enrolled in different academic programs in higher education.

The campuses follow the courses designed by the affiliating universities and examinations are conducted and processed by OCE of the respective universities[1]. The academic calendar for student enrolment, schedule of exam, publication of results, courses offered and class hours may vary from university to university. The institutions of higher education are at present providing courses on science and technology, education, management, social sciences and humanities, law, engineering, forestry, medicine, agriculture and animal sciences, ayurved and sanskrit. They run their academic programs with annual or semester systems at the bachelor, master, M. Phil., and Ph.D. levels, but some universities also offer programs like post-graduate diploma (PGD). Depending upon the stream and subject, bachelor level programs are of three to five years duration, master level programs of two years duration and PGD and M. Phil. courses generally of 1½ year duration.

## 9 Patan Academy of Health Sciences (PAHS)

PAHS was established in 2065 BS (2009 AD) in Jawalakhel of Lalitpur district. PAHS is based at Patan Hospital, the major teaching hospital for the academy. The PAHS is dedicated to improving the health status of the people of the country through the production of medical graduates willing and able to provide healthcare services to the disadvantaged population in the remote and rural areas. The academy initially comprised of a medical school, which began to teach MBBS students in 2009. PAHS has planned to open a school of nursing, a school of allied health sciences and a school to train other professionals in the health sector in near future.

One of the goals of PAHS is that its graduates will not only provide the severely needed medical care to the people in the rural area, but will also eventually become leaders in healthcare policy with dedication to improve the health of the remote and destitute populations of Nepal. Furthermore, PAHS plans to serve as a model for innovative medical education in developing countries, which can be replicated elsewhere.

## 12. Agriculture and Forestry University (AFU)

Agriculture and Forestry University (AFU) is the first State-owned and non-affiliating university of Nepal, established in accordance with the Agriculture and Forestry University (AFU) Bill enacted by the Parliament in 2010. Accordingly, the constituent campuses of Tribhuvan University - the Agriculture Campus at Rampur (Institute of Agriculture and Animal Sciences - IAAS) and the Forestry Campus (Institute of Forestry - IOF) at Hetauda together with Dean's Office IAAS Rampur were merged, and Agriculture and Forestry University was established in Rampur, Chitwan.

The university aims at producing skilled and competent human resources required to promote education, research and development in agriculture, livestock, veterinary science, fisheries, forestry, rural social sciences, and allied disciplines in agriculture. It also aims at contributing to all-round development of agriculture, livestock and forestry which would raise the socio-economic conditions of rural people through quality teaching, research and extension.

## Report Preparation

To prepare this report required data were collected from different sources: Universities, Office of the Controller of Examination, campuses etc. Tools used to collect data included:

- Statistical forms
- Emails
- Phone calls
- Personal visit to sources

The provided data were in tabular format in paper or in spread sheet.

- Those data were inserted into the standard UGC spread sheet format.
- From spread sheet those data were uploaded to database using database tool. (Data from spread sheet were uploaded to database as there was not software developed to insert data to the database.)
- As there were noise, redundancies in data, effort to clean those noise and redundancy were made as much as possible, but even how much effort were used still there remained some redundancies. After cleaning data, aggregated table was generated (one campus was having more than one program, different number of students in each program so it was necessary to sum total number of students for each campuses).
- Then from that aggregated table, summary tables required to prepare this report is generated.
- Those summary tables were then analyzed and described manually and incorporated into the report.

**Definition of key Terminologies/Indicators**

**Gender parity index (GPI)**: Ratio of the female-to-male value of a given indicator. GPI value of 1 indicates parity between sexes; a GPI less than 1 indicates a disparity in favour of boys; whereas a GPI greater than 1 indicates a disparity in favour of girls.

*: GPI= Female enrolment/ Male enrolment*

**Gross enrolment ratio (GER)**: Number of students enrolled in tertiary education, regardless of age, expressed as a percentage of the population in the theoretical age group for the same level of education, (19-24) following the secondary school age group.

*Formula: GER =Total Enrolment (Bachelor +master level) / Population (aged 19 to 23) * 100*

**Student/teacher ratio (STR)**: Average number of students per teacher at the level of education specified in a given academic year.

STR= Number of students/Number of teachers

**Gross domestic product (GDP)**: The sum of gross value added by all resident producers in the economy of the country, including distributive trades and transport, plus any product taxes and minus any subsidies not included in the value of the products.

**Higher Education Institutions:**

**Universities:** Institutes providing bachelor or higher level education.

Constituent campuses: managed directly by concerned university and are the part and parcel of universities.

Affiliated campuses:

Educational institutions are defined as entities that provide instructional or education-related services to individuals and other education institutions.

Higher Educational institutions are mainly classified as either constituent or affiliated (community and private) campuses according to whether a public agency or private entity has the ultimate power to make decisions concerning the institution's affairs.

An institution is called **constituent campus** if it is: controlled and

An institution is called **affiliated campus** if it is: controlled and managed by non-governmental organization (e.g. a church, trade union, local community or private business enterprise) and its academic programs are affiliated to a university; the affiliated campuses are further classified in the category of **private campuses**: - campuses that are controlled and managed by private organization under the rules and regulation of the concerned university. These types of campuses are privately funded for profit and **Community campuses**: campuses that are controlled and managed by community stakeholder under the rules and regulation of the concerned university.

**Public expenditure on education**: Total current and capital expenditure on education by local, Provinceal and national governments, including municipalities (household contributions are excluded). It covers public expenditure for both public and private institutions. Current expenditure includes expenditure for goods and services that are consumed within a given year and have to be renewed the following year, such as staff salaries and benefits; contracted or purchased services; other resources, including books and teaching materials; welfare services; and items such as furniture and equipment, minor repairs, fuel, telecommunications, travel, insurance and rent. Capital expenditure includes expenditure for construction, renovation and major repairs of buildings, and the purchase of heavy equipment or vehicles.

**Public expenditure on higher education as a percentage of GDP**: Current and capital public expenditure on education at every level of administration, i.e. central, Provinceal and local authorities, expressed as a percentage of the Gross Domestic Product. It measures the proportion of national income allocated to higher education.

**Public expenditure on higher education as a percentage of total government expenditure**: Total public expenditure on education at every level of administration, i.e. central, Provinceal and local authorities, expressed as a percentage of total government expenditure on all sectors (including health, education, social services etc). It measures the share of public expenditure devoted to education in a given year relative to the perceived value of other public spending. Therefore, it accesses the priority that government place on education compared to other sectors.

**Orientation of higher educational programmes**:

**General education**: Education which is mainly designed to lead participants to a deeper understanding of a subject or group of subjects, especially, but not necessarily, with a view to preparing participants for further (additional) education at the same or a higher level. Successful completion of these programmes may or may not provide the participants with a labor market relevant qualification at this level.

**Technical education**: Education which is mainly designed to lead participants to acquire the practical skills, know-how and understanding necessary for employment in a particular occupation or trade or class of occupations or trades. Successful completion of such programmes lead to a labor-market relevant vocational qualification recognized by the competent authorities in the country in which it is obtained (e.g. Ministry of Education, employers' associations, etc.).

**Enrolment**: Number of students enrolled at a given level of education, regardless of age.

**Entrance age (official)**: Age at which students would enter a given programme or level of education, assuming they had started at the official entrance age for the lowest level, studied full time throughout and progressed through the system without repeating or skipping a grade. The theoretical entrance age to a given programme or level may be very different from the actual or even the most common entrance age.

**Equity**: In education, the extent to which access and opportunities adults are just and fair. This implies reduction of disparities based on gender, poverty, residence, ethnicity, language and other characteristics.

**Graduate**: A person who has successfully completed the final year of a level or sublevel of education. In some countries completion occurs as a result of passing an examination or a series of examinations. In others it occurs after a requisite number of course hours have been accumulated. Sometimes both types of completion occur within a country.

**Private enrolment**: Number of students enrolled in institutions that are not operated by public authorities but controlled and managed, whether for profit or not, by private bodies such as non-government organizations, religious bodies, special interest groups, foundations or business enterprises.

**Community enrolment**: Number of students enrolled in institutions that are controlled and managed by public authorities or agencies (national/federal, state/provincial or local), whatever the origins of their financial resources.

**Teachers/teaching staff**: Number of person employed full time or part time in an official capacity to guide and direct the learning experience of pupils and students, irrespective of their qualifications or the delivery mechanism, i.e. face-to face and/or at a distance.

**Campus size:** Ratio of student enrolment to number of campuses, which means number of students per campus.

## Introduction of UGC

**University Grants Commission**

The University Grants Commission (UGC) was established after the implementation of the multi-university concept in Nepal. The UGC Act was approved by the Parliament on November 22, 1993, which started functioning from 1994. UGC is responsible for allocation and disbursement of grants to the universities and their campuses, regulating their activities for quality assurance, coordinating universities for mutual cooperation, and formulating policies and programs on the establishment of new universities.

**Main Functions of UGC**

- Formulate policies on allocation of government grants to universities and higher education institutions.
- Disburse grants to universities and make recommendations to the government for the grants provisions.
- Award research grants, scholarships, and fellowships.
- Take measures necessary to determine and maintain the criteria and standards of higher education.
- Formulate programs and policies necessary for the promotion and enhancement of the quality of higher
- education.
- Advise the Government of Nepal on the establishment of new universities.
- Make necessary arrangements for the exchange of facilities and fellowships between universities and educational institutions within and outside Nepal.
