**Press Release**

Hon. Dr. Bikram Timilsina, Minister for Information and Communication, who is leading the Nepali delegation to the 2026 Plenipotentiary Conference of the International Telecommunication Union (ITU PP-26), addressed today the High-Level Thematic Discussion on Resilience held at DECC, Doha.

The Hon. Minister recalled the recent devastating flash floods in Nepal along the Bhotekoshi- Trishuli river corridor, which not only claimed lives but also resulted in the damage of critical communication infrastructure causing widespread service disruptions. Highlighting the need for resilient infrastructure, the Hon. Minister proposed three concrete actions: turning existing commitments into measurable action, making resilient connectivity financially accessible, and strengthening international cooperation.

Likewise, the Hon. Minister held a bilateral meeting with H.E. Datuk Seri Fahmi Fadzil, Minister of Communications of Malaysia on the sidelines of the Conference. The Hon. Minister highlighted Nepal's steady efforts for advancement of digital transformation while striving to build an inclusive and trusted digital ecosystem during the meeting. Both sides also discussed about exploring concrete avenues of cooperation in digital connectivity, capacity building, digital trust, and enhancing engagements in multilateral forums.

The Hon. Minister is scheduled to address the Plenary session of the Conference tomorrow.
